8FT STEEL STORAGE CONTAINER FEATURES

- Robust shipping container construction
- Rubber door seals
- 1 or 2 vertical locking bars per door, fitted lockbox and high security container padlock
- Heavy duty 28mm wooden floor
- High level vents provide air circulation and reduce the build-up of condensation inside the container
- Can be stacked with containers of the same size, when using the double-ended twist lock accessory – although no staircase is available to hire for access
- Vermin proof

Our delivery drivers will level up the unit under the 4 corners. You will need to let us know beforehand if you have a very uneven or sloping site.

This container is fitted with forklift pockets – only suitable for lifting with fork tines of at least 8ft (2.4m) length and suitable truck capacity.
