10FT STEEL STORAGE CONTAINER FEATURES

- Shipping container construction
- Rubber door seals
- Heavy duty 28mm wooden floor
- Vermin proof
- High level vents provide air circulation and reduce the build-up of condensation inside the container
- Can be stacked with containers of the same size, when using the double-ended twist lock accessory. You will need to provide access to the first storey as no staircase is available to hire.

Our delivery drivers will level up the unit under the 4 corners. You will need to let us know beforehand if you have a very uneven or sloping site.

This container is fitted with forklift pockets – only suitable for lifting with fork tines of at least 10ft length and suitable truck capacity.
