£3,740.40 (inc. VAT)

PRODUCT DETAILS

Promotional Offer – Get a free set of 8 Eco Foundation Pads with each linked flatpack store bundle purchased online in April. To claim this offer add the free Eco Foundation Pads pack from the product options into your basket.

If you need a large open space for storage of goods in an awkward space two side by side linked 3m stores provides 11.3m² or 121 square feet and its an expandable solution too (add additional containers and link kits once you add the bundle of units to your basket).

Side by side links benefit from all the usual benefits of the flat pack storage range notably that the individual components can be moved by hand and erected in challenging positions behind or even within buildings as required.

The linking kit is powder coated in green to match the containers and for long life the green powder coated finish (RAL6005) makes it an ideal storage for discreet use in the countryside.

This bundle comprises:

- 2no [3m flat pack powder coated stores](#) (QF251)
- 1no [side by side linking kit](#) (QF591)

The side-linked bundle benefits from 2 doors and an extra set of doors is included with each additional store unit added.

Linked units can be joined with doors at the same end of opposite ends, providing great flexibility in restricted spaces.

Please note flat pack containers can only be joined in one direction eg: side by side or end on end.

3M X 4.2M FLAT PACK STORAGE CONTAINERS (POWDER COATED) BENEFITS

- Simple to join together
- Many users like the softer lines and building feel compared to shipping containers of similar sizes
- Storage units can be taken apart and moved at anytime
- Ideal for storage of bulky items or different products when you need the space to reach the items at the back of storage
- Doors are simple and easy to use by all, operated with just the turn of a key

These linked flatpack containers are available for sale and delivery throughout the UK.
