£3,788.00 (exc. VAT)

£4,545.60 (inc. VAT)

PRODUCT DETAILS

Promotional Offer – Get a free set of 8 Eco Foundation Pads with each linked flatpack store bundle purchased online in April. To claim this offer add the free Eco Foundation Pads pack from the product options into your basket.

The 4m powder coated green flat pack containers are linked with the matching green linking kit to create extremely large open spaces for the storage of goods, tools and equipment.

This bundle comprises:

- 2no [4m flat pack powder coated stores](#) (QF257)
- 1no [side by side linking kit](#) (QF592)

The powder coated green (RAL6005) makes the store ideal for discreet use especially if its being used at home, in the garden or on a sports field.

For awkward sites the side by side linked flat pack stores are an extremely useful and expandable solution. With all the usual benefits of the flat pack storage range notably that the individual components can be moved by hand and erected in challenging positions behind or even within buildings as required.

A large usable space is created by joining units together. It is also possible to join more flat pack containers if required (add additional linking kits and stores to your online basket in the checkout process).

The side linked set-up also benefits from multiple doors and an extra set of doors with each additional unit added. Linked flatpack units can be joined with doors at the same end or opposite ends for maximum flexibility (decide when you are erecting the unit exactly what position works best).

Please note that with the 4m containers you will probably need 4 to 6 strong people to assist if you need to move the parts to the erection area from drop off area by hand.

Also note that flat pack containers can only be joined in one direction eg: side by side or end on end in the same structure.

4M X 4.2M LINKED SIDE-BY-SIDE FLAT PACK CONTAINERS (POWDER COATED GREEN) – IDEAL USES

- Grounds maintenance teams at Golf Clubs and Schools – parts can be easily moved to remote corners of sports fields providing quick and easy access.
- Sports clubs for the storage of sports equipment
- Scouts, CCF, Cadets, Guides, Youth Groups for storage of equipment
- Parish councils and village halls / community centres for storage of chairs, tables and other equipment such as garden tools and groundcare equipment.
- The rail industry – use on sidings, platforms and other areas where crane delivery is not possible

This linked flatpack container bundle is available for sale and delivery throughout the UK. Add to lorry to calculate delivery cost to your postcode.
