Quickfind Code: 965

Part Number: STEEL WELDED PARTITION IN CONTAINER 20FT

£375.00 (exc. VAT)

£450.00 (inc. VAT)

PRODUCT DETAILS

This Removeable partition used in conjunction with a tunnel container allows you to convert one large container into two separate storage spaces that are completely secure from each other. This item requires no bolting or welding to the container leaving absolutely no evidence of ever being installed once removed. Installation takes less than twenty minutes and can be installed in just about any location within the container. Quick and easy to install the powder coating enables hardwearing and prevents corrosion, with corrugated steel for added strength granting the peace of mind that goods are safe and secure

- 4 pressure fitted feet fit between container wall corrugations
- No bolt-on or welding needed
- 16 gauge steel construction
- Each section 2362 x 1118
- 54.43kg / 130lbs
