PRODUCT DETAILS

The 3m flat pack store solves storage needs in hard to access places.

This galvanized store is light enough to be moved by hand and the components are small enough to fit through small passageways. No need for cranes, forklifts or specialist tools – just a socket set and you're away!

To erect the container you will normally need 2-3 people, although if you need to move the components of the store a long way by hand a minimum of 4 or more people are recommended. Once erected, the store can be lifted from its lifting eyes.

This 3m flat packed store can be linked to another flat packed store unit to form large open plan areas of storage space for long items (end-on-end linking) or wider items (side-by-side linking). Please contact us for further details.

Flat pack stores are available to hire throughout the UK. Hire is for a minimum of 12 weeks.

3M FLAT PACK STORAGE CONTAINER (HIRE) FEATURES

- Fully galvanized body
- Robust and secure store once erected
- Easily moved as the project develops (lift from above or demount)
- Simple assembly
- Fully expandable (modular) depending on the product and material being stored
- Save on expensive crane and delivery hire

The newly improved flat packed store now comes with a double locking system for additional security at no extra cost.
