PRODUCT DETAILS

Promotional Offer – Get a free set of 4 Eco Foundation Pads with each flatpack store purchased online in April. To claim this offer add the free Eco Foundation Pads pack from the product options into your basket.

This collapsible 3m Galvanised Flat Packed Store is light enough to be man handled and the components are small enough to fit through small passageways. No need for cranes, forklifts or specialist tools. Just a socket set – and you're away!

Up until now, the only alternative product was a tin shed, which offered minimal security, and even less in aesthetic appearance.

Once erected, it can be lifted from its lifting eyes with a cargo on board. This 3m flat packed store can be linked to another Flat Packed Store unit to form large open plan areas of storage space as required (side by side and end to end).

3M FLAT PACK STORAGE CONTAINER (GALVANISED) FEATURES

- Fully galvanised body
- Less storage space when not in use
- Simple assembly
- Fully expandable (modular) capability
- Low cost

The newly improved flat packed store now comes with a double locking system for additional security at no extra cost.
