

## SIDE LINKED 6M XL FLAT PACK STORE BUNDLE

Quickfind Code: 280

Part Number: SALE 2 X LINKED FLATPACK STORE 6M  
SIDE BY SIDE GAL

**£6,150.00** (exc. VAT)

**£7,380.00** (inc. VAT)

## PRODUCT DETAILS

The 6m XL flat pack side by side bundle is a unique product, and provides all the components to create large work or storage areas at a fraction of other building costs.

The bundle comprises:

- 2no [6m XL stores](#)
- 1no 6m side linking kit

Erection of the side linked 6m XL bundle does require a more skilled team than the standard range of flat pack stores, this is mainly due to the larger and heavier parts necessitating access to some lifting equipment to move the parts and to assist with erection and linking of the building (this could be a suitable forklift, telescopic handler, crane, overhead gantry). Parts other than the floor and roof can still be moved by hand if necessary, but typically require 4-6 people and a risk assessment to do so.

The need for mechanised lifting does not limit the unique benefits of the Portable Space flat pack range, its still possible to locate the 6m XL linked bundle in places that a normal HIAB equipped vehicle could not deliver. For example on construction sites or playing fields the component parts can easily be moved with an all terrain forklift, telehandler or small flat bed truck across fields and tracks that would make it either impossible or exceptionally expensive for delivery of a standard container.

The side linked set up gives you the opportunity to create your own fulfilment warehouse for your online business on your doorstep, a mini warehouse for a fraction of the cost of almost any other option.

Please note the linked bundle cannot be lifted from above or below once joined, as the linking kit is not designed for this and in any case it would be physically too large to lift. Linking can only take place in one direction (side by side or end on end) in one building. Unlimited, additional side linked 6m XL stores can however be added to this product as required.

If you need a 6m store and you either do not have access to suitable lifting equipment or you need to move all parts by hand then please take a look at [4m x 4.2m side linked store bundle](#) (QF977) which is the largest person portable side linked bundle we offer, comprising 2no 4m storage containers.

Please download the drawings from the download section to check sizes or if you need help and advice to choose the right product for your task please [contact us](#).

## PRODUCT SPECIFICATIONS

External Length (m)	5.88
External Width (m)	4.66
External Height (m)	2.24
Internal Length (m)	5.72
Internal Width (m)	4.27
Internal Height (m)	2.10
Door Width (m)	1.75
Floor Type	15mm OSB Board
Weight (Flatpacked) (kg)	1700
Weight Heaviest Part (when Demounted) (kg)	306
