PRODUCT DETAILS

The 185cm long galvanised steel shelf is 45cm wide and incorporates a 25mm steel lip to provide strength, prevent items slipping off and to catch any minor spillages when storing liquids.

For a 4m store on the long side you would normally use two 185cm shelves and shelves can be fitted on both sides if required.

In a 2m store the 185cm shelf can also be fitted on either or both of the long sides.

The maximum carrying capacity of any shelf is 60kgs as long as the correct number of [shelf arms](#) and [shelf uprights](#) are being used.

Please ask for details if you are not sure.
